

# How To Create A Potato Stamp

1. Slice a potato in half, lengthwise.
2. Push a cookie cutter through the cut/flat side of the potato half.
3. Keeping it flat on the table, break away the extra potato.
4. Poke shape out of cutter and use a paper towel to blot away moisture.
5. Spread thin layer of paint on a paper plate and dip the potato (flat side down) into the paint.
6. Shake off excess paint. Stamp away!

Don't you DARE  
think of stamping  
me on anything!

Thanks to the Ontario Potato Board  
for their help with this handout!
